

Klub Coin

💜 The 1st global cryptocurrency for all clubbers, festival goers and electronic music fans.

The ecosystem and product:

Klubcoin is the first cryptocurrency designed specifically with the electronic music industry in mind. It is already trusted by some of the world's strongest electronic music brands and is an empowering, fast-growing ecosystem that allows clubs, festivals, artists and DJs to offer crypto-ownership and rewards to their loyal fans. As part of this new fan-token economy, Klubcoin can be used both IRL in physical events and in the Metaverse.

? How we make it happen:

The Klubcoin founders have more than 25 years of experience in the Electronic & Dance Music industry, they created Klubcoin to offer a unique utility for all electronic music aficionados. Klubcoin is the first cryptocurrency dedicated to nightlife, clubbing & festivals including major brands and players of the Electronic Music industry. More than just a payment method accepted by all the partners of the Klubcoin ecosystem, Klubcoin also offers instant cashback and rewards when users purchase products & services with KlubCoins from partners of the Klubcoin family. We created the first Party-to-Earn model.

For the users : Party-to-Earn !

From clubs to festivals, ticketing platforms to medias, consumer electronics, DJ gears, online platforms to download or stream music...all Klubcoin users can collect and earn tokens, just like airlines miles, and decide to spend them into other products & services of the Klubcoin network, or just convert back into euros or dollars, everything within a safe environment. By holding Klubcoins in a wallet, token holders will get access to exclusive parties, sold-out events, NFT rewards, meet-and-greets with international DJs and money-can't-buy experiences curated specifically for the Klubcoin family.

For businesses:

The Klubcoin partners list is ever-expanding and includes worldwide famous clubs, festivals, ticketing platforms, DJ stores, consumer electronics brands, streaming music services and nonfungible token (NFT) marketplaces. By joining the Klubcoin ecosystem, businesses such as Clubs, Festivals and other electronic music brands are getting access to a unique club composed of electronic music lovers from all over the world and can offer their loyal customers a unique membership reward mechanism: Party-to-Earn!

IRL Usage & Utility :

Klubcoin allows real time IRL transactions in Clubs, Festivals, Beach Clubs, Restaurants...Etc

- 1 Purchase festivals, clubs & events tickets with Klubcoins
- 2 Purchase drinks with Klubcoins
- 3 Purchase VIP tables with Klubcoins
- 4 Hold & Stake to get access to private events and money-can't-buy experiences.
...etc

Exclusive IRL Events & Metaverse :

Klubcoin's long term Roadmap includes exclusive events and Metaverse

- 1 Klubcoin festival in Croatia
- 2 Klubcoin exclusive events in Ibiza
- 3 Exclusive NFT Collection
- 4 Party Metaverse
